Subject: Your Landfill Questions and Invoice

Matt,

I have a request into Cassella for the information you are looking for. I will get it to you as soon as I receive it. Also still waiting on Siemens. I have attached an invoice for the City of Geneva's Asbestos Contractor License that I renew for you annually. I am the responsible party for this license, as such as in the past you have agreed to assist with the insurance coverage cost that I have to pay to maintain this license. This invoice is for payment of that fee. Please forward to the proper person for processing. If you have any questions please contact me.
As I stated above as soon as I hear anything on your requests I will get back to you ASAP.

Thank you in advance.

Gordy
