CITY OF GENEVA TASK FORCE STARTED AND STAFF AVAILABLE FOR RESIDENTS

Councilor Laura Salamendra has put into action a Task Force with community partners and residents to help coordinate the multiple and generous efforts throughout Geneva to serve residents and businesses during the COVID-19 pandemic. Any organization or individual wanting to join in the efforts, please contact Erica Collins (ecollins@geneva.ny.us). Councilor Salamendra states, “Evidence from around the world is telling us that those communities survive that clearly coordinate and communicate their efforts. We must do this on the local level. I called this task force because it is the job of City Council to serve and protect all the people of our city.”

City of Geneva staff are ready and available to assist community members via phone, email and through the City’s website (www.cityofgenevany.com). For all emergencies, community members should call 911.

Community members are encouraged to reach out to staff with city government needs or for help navigating COVID-19 regulations and resources available from community partners as well as local, state and federal agencies. If staff cannot provide a city service, any delays due to COVID-19 regulations will be communicated.

Updates are being added frequently to <http://cityofgenevany.com/covid-19/> with City resources as well as regulations and other assistance to residents and businesses.

City departments can be reached through the following channels:

Assessor – 315-789-0091 or spigeon@geneva.ny.us (Stephen Pigeon)
